UK REACH COMPLIANCE DECLARATION

Euroquartz Limited confirms that none of the products it supplies (*except non-ROHS parts containing Pb as a customer requirement*) or packaging, contain any of the Substances of Very High Concern (SVHC) on the UK REACH Candidate List (Article 57), outlined at HSE Source: <https://www.hse.gov.uk/reach/about.htm>, in a concentration above the 0.1% by weight allowable limit.

Euroquartz Limited declares that all its products as of the date of issuance of this Declaration do not contain any of the UK REACH Annex 14 Substances. (Authorisation List)

As REACH regulation is updated frequently, for the major changes afterwards, such as the addition of SVHC substances into Annex 14, Euroquartz Limited will evaluate further revisions in time and update this declaration to reflect these changes.

Annex 14: <https://www.hse.gov.uk/reach/authorisation-list.htm>

We further declare that all statements in the Declaration are true and accurate.

The above declaration is subject to amendment, as new substances as new substances are added in accordance with the current UK REACH legislation.

Signed (for and on behalf of (Euroquartz Ltd)

Context

UK REACH regulation that applies to the majority of chemical substances that are manufactured in or imported into Great Britain (GB) (England, Scotland, Wales). This can be:

- a. A substance on its own
- b. A substance in a mixture, for example ink or paint
- c. A substance that makes up an 'article' - an object that is produced with a special shape, surface, or design, for example car, furniture, or clothes.

REACH stands for **R**egistration , **E**valuation, **A**uthorisation, and restriction of **C**hemicals.

EU and UK REACH

Under the European Union (Withdrawal) Act 2018, the EU REACH Regulation was brought into UK law on 1 January 2021 and is known as UK REACH.

REACH, and related legislation, were replicated in the UK with the changes needed to make it operable in a domestic context. The REACH Statutory Instruments that made these changes can be found on legislation.gov.uk. The key principles of the EU REACH Regulation were retained in UK REACH.

The UK REACH and the EU REACH regulations operate independently from each other.

UK REACH regulates chemicals placed on the market in GB.

Under the terms of the Northern Ireland Protocol, EU REACH continues to apply in Northern Ireland.
